THE THIRTIETH DAY of November will soon be at hand, and we suppose the sons and daughters of Old Scotia, who are dwellers in the island realms of Kalakaus, will fete the auspicious day of St. Andrew's with all the national rejoicings traditional in the land of the Gael.

ULTIMA THULE LODGE, I. O. G. T .- A re-organization of this Lodge took place last Monday evening. officers being elected and duly installed for the current quarter. All who admit that intemperance is an evil-and who does not ?-will also admit that there is in Hawaii nei a wide field of labor for those who have the good of their fellow men at heart. The subject is one that should interest all classes of the community, for all are more or less directly affected by the existence of the terrible vice of intemperance. The following are the officers installed by the Deputy G. W. C. T., Rev. G. Morris: C. Blackburn, W. C. T.; Mrs. Oat, R. H. S.; Miss E. Brash, L. H. S.; Miss All Orders from the Other Islands Carefully Kruger, W. V. T.; F. Oat, W. S.; J. W. Hopper, W. A. S.; Mrs. K. Lewers, W. F. S.; Mrs. Blackburn, W. T.; J. M. Oat jr., W. M.; Mrs. Torbert, W. D. M., Whether or not they ever shall come here, with which Miss Annie Torbert, W. I. G.; J. Lucas, W. O. G.; G. H. McConnell, W. C. C. Blackburn, L. D.

THE FUTURE .- The establishment of a submarine telegraphic cable between New Zealand and San Francisco-an undertaking which has been proposed by Lord Normanby to Earl Carnarvon as advisable to be carried out at the joint cost of the British Australian and United States governments-will, if realized, as is likely, produce an all-important influence upon our general relations with the outside world. Hawaii nei will thus be introduced into the great

family of nations. Welcome, Spark ! THE COOLIES are coming nearer to us every day. We now read in a New Zealand journal the following statement with reference to the proposed introduction of coolies into the Fijis: "Sir A. Gordon is about to attempt to supplement, if not altogether supplant, Polynesian labor in the Fiji Islands by that of Indian coolie labor." Under these circumstances, the Hawaiian Government's Agent, at present in the Fijis, Capt. Mist, should meet with little difficulty in securing there a large batch of Polynesian laborers

AN EYE TO THE FUTURE .- As soon as Earl Carnarvon and President Hayes kindly unite us with the British Australian Colonies and the States, and indeed with the whole telegraphic world, by laying down the submarine cable proposed by Lord Normanby-we think we may state that Baron Reuter's Telegraphic Agent here will be a gentleman connected with the Honolulu press, who for the present

shall be nameless-not Balaam's ass, however ! NEW SUBMARINE TUNNEL .- The remark of the present writer in the South African Press a couple of years ago that people would yet take a railway ticket in Capetown for Paris, London, or St. Petersburg, is in a fair way of being realized, as

we conclude from the following telegram: "It is proposed to bore a tunnel from near

Algeoras, in Spain, to a point between Tangiers and Centa, a distance of nine miles." As we then suggested, while this tunnel is borng, no time should be lost in beginning a raile sold at public auction, at the front entrance of Alijolani Hale, Six Lois, situated in Anaukai, Waikiki, Oahu and conroad, through Morocco, and the Sabara to St. Louis of Senegal and Sierra Leone, with a branch to Timbuktoo, and thence by the Niger valley to old Calabar, in the Bight of Benin, from which it should follow the west coast of Africa, through the Portuguese possessions in Congo. Loango, Angola and Benguela, to the British South African Frontier. A railroad is in operation from Capetown northwards by the coast for some miles as a commencement of this gigantic scheme of railway ommunication between Great Britain and her South African splendid possessions. The distance from Capetown to the Gibraltar Tunnel may be

NEW STOCK .- We notice this week with real pleas-

ure the importation by Mr. J. L. Richardson, of some

set down at about 5.000 miles.

pre-eminently superior live stock. With the facilities which these islands possess for raising animals-shall we say animals of all kinds,-the introduction of superior breeds is not only a most praiseworthy undertaking, but also one which undoubtedly indicates in future a great success. Of the imported horses we mention first a beautiful Kentucky stallion, 18 months old, sired by Terraseon, who was sired by Prince Albert, he by Abdallah, he by Mambrino, he by imported Messenger. His dam was Sally Patton by Tom Newcomb, he by Episilon (own brother to Yamma) by Pacific. Sally Patton's dam was Cottage | wicke and Sir John Astley, Apropos, we hope our Ann by imported Leviathan, third dam Sally Kerby by Stockholder, fourth dam by Barkdale's Gray Diomede, fifth dam by Ball's Florisel, sixth dam by Belliar. Prince Albert's dam was by Lance, son of American Eclipse, grandson of imported Messenger. Terraseon foaled in 1860, and weighs 1050 pounds. This young stallion, son of Terraseon, is named Hokulele. The second stallion, General, a dark chesnut, and also a beauty, was sired by Young Geo. M. Patchen, he by California Patchen, he by Geo. M. Patchen Jr. General's dam was a fine chesnut mare sired by Young Prince Alfred, he by Old Prince Alfred. General has taken three premiums. Besides these valuable horses Mr. Richardson has imported several fine sheep and two really magnificent bulls of the Durham breed. "Lallah Rookh" has a pedigree rather too lengthy for insertion in this notice. He was sired by imported bull "Water Prince," and such names as "Vanguard," "Brown Prince," "Duke of Northumberland," are among his ancestry, which makes " Lallah Rookh " one of the best acquisitions to the stock of this country. The other bull, a splendid white Durham, promises to be equally valuable. He comes from a good family also, and the cows of his family used to give from 94 to 104 pounds butter per week. Both animals are kind and gentle, and a child two years old can handle them. Mr. Richardson imported also some pigs of pure "Essex breed," and, what must e pleasant news to all who in the future will rejoice in fat and juicy turkeys on Thanksgiving Days, some genuine American turkeys. No domestic or barndoor fowls on these islands have more deteriorated than the turkeys-not to remark particularly upon other

forethought in Mr. Richardson to pay attention to bettering this worn-out fowl by the introduction of a superior breed. -Mr. Richardson imported also a very fine carriage horse for Mr. Turton, and a span for Hon. H. A. Widemann. Space forbids us to enlarge on the beauty and points of the animals, and we would suggest, in view of the fact that this stock is the finest Waiobinu, in the district of Kau, on the Island of ever imported into this country, that Mr. Richardson should exhibit them at Emma Square on some publicly notified day, so that all might have an opportunity to admire the largest kind of bovine ever seen in Hawaii nei. Of chickens we have lots of all

kinds of imported bipeds, -and it was indeed a good

WE ARE amused to notice that, since the publication of a paragraph from the Northern Advocate of Whangarei, the Gazette's "hybrid" has abated his just opposite our office, in putting up, with sinslanderous invectives against our Maori fellow subgular celerity, the walls of the new banking jects of New Zealand. Whether this country will be able to get a few Maori families to come here as plantation settlers, we know not; but, we still believe that they would be an acquisition with their children under present circumstances of the native population of these Isles. Sir George Grey, we think, will favor the scheme, if this government decides to look for some married Maoris with their families in that quarter. At a recent debate in the New Zealand parliament, Sir George was called upon to make some explanations concerning his policy when governor of New Zealand, with reference to the treatment of the native Maoris, and he is reported to have said: "The object of the proposed plan was to prevent natives from selling the land in perpetuity,"a proof of Sir George's solicitude for the best interests of the Maoris. Sir George has a different opinion of the Maoris from that expressed by the slanderous writer in the Gazette. Recently the same writer accused all the Maoris of Whangarei and the Bay of Islands districts with being a lazy, idle, good-fornothing lot, and beasted that he knew all about that part of the country and its native population, whom he charged with being even greater idlers than the Hawaijan patives. Now, to give our readers some idea of the audacious slanders of this " pakeha," we shall refer to a report in the Northern Advocate of a meeting of several high chiefs of the Maoris on September 11th last, at Whangarei, with Judge Monro, Assessor Rehia Te Kaune, and Mr. Grey, Clerk of the Native Lands Court. That journal says:

ans of these or succeeding times, ought to remember | rarau Kukupa, Taurau Kupupa, Renata Manihera, with peculiar satisfaction. There will be a parade Rata Tiakiriri, Tito Tirarau, Honi Winiata, Wharepapa, Te Tatau, Hoera, Witete, Te Puku, Hira Te of the military-including the independent corps Taka, Pomari Kingi, Tawatawa, Te Koroneho, Remi Tepona, Horomona Kaikou, Eru Whiri, Wikipirihi, Peni Taka, Rewi Tohu, Hepe Moanariki, and others. A large number of other natives were present."

How many of these chiefs had the "honor" of the acquaintance of the Gazette's correspondent? He government that a few Maori families might be got Nail Brush Racks, Newspaper and Music Racks, Toy to emigrate from the Bay of Islands to this country, Swings, Watch Stands, untrimmed. Also, a new a suggestion which led to a long recrimination a suggestion which led to a long recrimination against ourselves personally in the columns of the neet Australia with San Francisco by a sub-Gazette, coupled with most slanderous attacks upon the Maoris, we are now happy to be able, in defence following from a New Zealand parliamentary of our plan and our Maori friends, to quote the following highly creditable testimony of the Northern Advocate, with reference to the class of Maoris some of whom we ventured to suggest to this government | via Sandwich Islands and San Francisco. He to introduce into this country, if practicable: "The next week will probably be a busy one in Whangarei, as a considerable sum of money must change hands. Up to the present time the natives

have behaved in a most exemplary manner, and we have not a single case of drunkenness to report." We think now that we have sufficiently shown that whether or not they ever shall come here, with which matter we have nothing of course to do.

To the Editor of the Pacific Commercial Advertiser : Sin: Will you please inform, through the columns of the ADVERTISER Two Sober and reliable men upon what terms they can obtain a start in

Sugar planting. Means limited. Would require some assistance. An answer will oblige. T. C. [We shall be happy to give the above inquirer satisfactory references, on personal application at

To the Editor of the Pacific Commercial Advertiser: Sin:—Not many days ago, a well-known literary M. D., was heard to feelingly remark: "If I am spared and can borrow a 'Shakespeare,' somebody will have reason to regret the evil moment in which he trod upon my corns. Later on, the same M. D., might have been seen rushing around town at lightning speed, in quest of the now indls spensable prize. Several twenty-five cent editions were offered to him, but this only raised his ire, and he hobbled forth, grinding his teeth and muttering to himself: "I will have a pure unadultera-ted version bound in calf or die by gosb. Hav-ing at length struck the object of his anxious search, he hired a push-cart and had the valuable freight duly landed at the Gazette office. The book measured two thousand cubic inches. The printer's devil and two pressmen were called upon to assist in the proper delivery of this gigantic volame, and afterwards, while wiping the perpiration from off their brows, said, "we do believe that the old man has gone crazy; fancy his wanting a big book like that to find out he was an ass!" All right! the Gazette has started in at throwing mud, and so far, the mud has all fallen back in its own face. Of all the written passages in Shakespeare's? works the mud thrower could not have selected one more applicable to himself : "Write me down an ass!" Nothing new here. But it may be added he has got more cheek than a government mule to deny to-day what was published in the Gazette time and again; the public will remember these are facts: After the decision in the trial which gave rise to the Sabbath-Law discussion, the Gazette was promptly on hand with columns of obsolete laws and any quantity of humbugs of its own make up, favoring, what appeared to its very comprehensive mind, to be the popular side of the question, and afterwadds finding that no such Ph.i. would be swallowed, tried to fratermise with the enemy, so to speak. It were caught tripping, and now become riled, because has inability to fool the public has, as it professionally remark, of its become chronic.

VISIT OF THE PRINCE OF WALES.-We are likely to

see H. R. H. the Prince of Wales in our city next

year. An Indian official paper, the Lahore Civil

and Military Gazette says: "The Prince of Wales"

Australian tour is definitely fixed for 1878. H. R. Highness will leave England in the September of that year, accompanied by the Princess; and after visiting Australia and New Zealand, will return by way of the United States." We don't think the Prince will pass by Hawaii nei without calling in to look at " Pele." ARCHEOLOGICAL DISCOVERY .- The Globe states that a curious archeological discovery has lately been made in a cave in the Alps, near Sisteron, known as the Trou d'Argent or "Silver Hole." Two robbers had concealed their plunder in this cave, which was

almost inaccessible; but on their discovery and arrest

the Trou d'Argent was visited by the police author-

ities, and subsequently by French savants, who

found there several Roman coins of the third cen-

tury, Gaulish flint hatchets, pottery, and fossil remains of gigantic ruminents. MIRGHOLAH, a Persian writer of last century, has left a work in which he discusses the question of the Fall at a future day of the British power in India, and the probable causes thereof. It is singular that he supposes the case of a war between Turkey and Russia, in which England would be powerless, owing to a want of unanimity in the national policy, to stop the Russian Czar from overthrowing the head of the Sunnee Mohammedans, which event would be the fore-runner of the conquest of Persia, India,

China and Japan-all Asia-with Australia and the

Pacific Isles-by Russia in successive times. ALASKA .- The United States has little advantage n the possession of Alaska, and the Indians of Sitka and other localities occasion much trouble to the authorities. Perhaps the very best policy for the United States government would be to re-sell the Alaska territory to England. It is the only part of the United States territory which is not contiguous to the rest. Alaska would be very useful to England, as in the next war with Russia it is likely that

Now, we ask : why did Mrs. Jury go to Paranatta Asylum at all it she is perfectly sure that the "prisoner of Dartmoor," is her lost brother Arthur Orton? It is plain to us that the woman has her doubts about the matter. Yet, it is on the evidence of this woman that Roger was identified

THE HEAD of the present New Zealand Ministry, Sir George Grey, is remarkable for his sympathy and friendly sentiments towards the Maoris. Sir George is also an accomplished Maori scholar, and is the author of an English Translation of a Maori Mythical Legend, entitled " The Labours of Maui, the Maori Hercules;" which was published in the Southern Monthly Magazine of Auckland in 1864, by H. H. "Amongst the principal chiefs we noticed: Te Ti- Lusk. We doubt not that Sir George would warmly support our plan of importing a few families of our 'Maori cousins' to these Islands, and we believe that he would be likely to take a very lively interest in the scheme. The fact of Sir George being Premier now in New Zealand leads us to hope that any steps which our own government may take in this matter will meet with the most friendly attention from the New Zealand government.

> A SUBMARINE CABLE.-We await with lively interest the decision of Earl Carnaryon, with reference to Lord Normanby's proposal to conmarine cable. On this subject we extract the

> "On the 10th of April 1877, he (Lord Normanby) forwards a memorandum, re-duplicate cable, believed the United States will afford the colonies material support in the construction of the line. A memorandum by the Commissioner of Telegraphs refers to the convenience of a duplicate line in the prevention of monopoly, and from mutilation by operators unacquainted with the English language.

> Thus, our anticipations are likely to be realized -at least we put our trust in Lord Carnaryon and President Hayes. We have a good place on this planet!
